CAREER OBJECTIVE

I am an aspiring individual with high ambitions and sense of responsibility. I constantly strive to acquire valuable knowledge and skills to complement those that I have learned in due course of time in an actual job environment.

EDUCATION

B Tech Electronics and Biomedical Engineering

Cochin University of Science and Technology

2009 – 2013

Higher Secondary

New English Jr. College

2007 – 2009

Secondary Schooling

Holy Family Convent High School

1994 – 2007

TECH STACK

HTML5, Javascript, React, Angular 6, Node, CSS3, Java,
Spring / Spring Boot

PROFESSIONAL EXPERIENCE

Vice President

Goldman Sachs

05/2023 – Present | Bengaluru, India

I own the digital onboarding application for the Consumer Wealth Management group. My core responsibility is to track and map all the requirements for future product maps and align the delivery accordingly.

Senior Associate

TIAA

11/2016 – 04/2022 | Mumbai, India

Immediate Annuity (5 years 6 months)

- I am a Full-Stack developer here, with responsibilities varying from developing UX design to implementation of the same using Angular 6 and Spring boot Micro-services
- Mapped and streamlined 109 subsystems to one cohesive business flow.
- I lead a team of 6 people who are collectively responsible for developing the wireframes and developing the UI
- I also act as a TechLead in two SCRUM teams and help them with architectural design. I also help them in a DevOps capacity and aid them in building Jenkins Pipeline and Openshift deployment using Electricflow

System Engineer

TATA Consultancy Services

12/2013 – 11/2016 | Mumbai, India

• **SmartSales Engage** (3Years)

- I was the technical lead in the project.
- I was responsible for holding the team together and mentoring the new team members.
- I designed most of the screens for the hybrid mobile application, first of its kind and complexity.
- I also helped with the database design.
- The application was built on a custom framework we designed using Spring and AngularJS
- Built this application for both Android and iOS.
